#### **QUESTIONS & ANSWERS**

## Have you applied for Special Fees in the past 3 years? If so, please detail the outcome of each attempt.

Yes, AASA has applied each of the last three years. In the past three years, we have passed each time.

#### If you applied for Special Fees last year, is there an increase in the amount you're seeking this year? If so, why?

Yes, honoraria and event food has increased because we are aiming to reach out to more students on campus from different communities in the upcoming year. With the increasing costs of travel and hotel, speakers need more compensation for the time that they choose to give to our organizations.

In terms of technical services, although space and equipment rental costs from Event and Labor Services have increased, we are trying to find alternative sources of funding. Many free venues on campus are insufficient to host the number of people that some of our events target.

## Please define the services provided by your group with the Special Fee, as per the ASSU Constitution:

AASA uses Special Fees to put on events for the greater Stanford community. We invite guest speakers to come talk about social, political, and cultural issues pertinent to our communities. AASA subgroups also organize large cultural events such as TCS Night Market, SVSA Lunar New Year, and Sanskriti Mela Show that involve collaboration with each other as well as with other student groups on campus, both Asian American and others.

## What are the three largest line item requests in your budget and why?

Event Food: Many of our subgroups are culturally based and celebrate various holidays. There are a diverse array of holidays celebrated by our community and many of them center around food. Moreover, our subgroups host events, such as cultural food workshops, to promote their culture and make it more familiar to the Stanford community. There are also numerous events and conferences held during meal times (or all day) which require food.

Technical Services: Our community hosts a minimum of four culture shows and a variety of other performances requiring technical services provided only by Stanford Events and Labor Services and UNNICO. A majority of equipment we need and use also comes from these sources for our performers, speakers, and co-sponsored events. Honorarium: Because the community is so large, there are many different kinds of guests invited to speak on various topics. In order to fully understand the multiplicities of the community, multiple speakers are normally engaged. Also, the topics and areas of the community from which they come are vastly arrayed. Additionally, the speakers who come are usually higher profile figures who are influential and draw larger crowds.

# How do you plan to publicize your events/programs to the greater Stanford community? Have you registered with Events at Stanford?

All events are registered with Events at Stanford. Numerous email fliers and physical fliers are sent out on a weekly basis. There is also a calendar in the Asian American Activities Center. We send out a bi-monthly digest of all the events that occur in the AASA umbrella and update our website and online calendar frequently as well.

## If you are an umbrella group, please list the groups for which you are applying for Special Fees, their ASSU account numbers, and contact

## What events/programs does your group hold throughout the year for the Stanford Community?

All of our events are open to the Stanford community. Although they occasionally target high school youth, all Stanford students are welcome to attend and learn. Stanford community members are also welcome at all events with very few exceptions--those being core retreats or trainings.

The following is a partial list of events held by AASA and its subgroups:

#### Why are you requesting Special Fees?

AASA not only puts on many events throughout the year, but it also serves as the financial umbrella for 14 subgroups that also produce their own events, independently and in collaboration with AASA. All of AASA's events are open to the entire Stanford student body, and are expensive to finance and organize. Furthermore, AASA co-sponsors events with the Asian American Activities Center (A3C) and other API interest organizations, other communities of color, and other groups to put on interesting and diverse programming.
